

ANNUAL INDEX--Volume 52

1977 INDEX TO AUTHORS

- Allen, Ralph. *Tracking Soapstone Artifacts with Rare Earth Trace Elements*. Mar., p. 67
- Batory, Dana. *The Early Days of Copper Mining in California*. Dec., p. 521.
- Blackford, Virginia. *Christmas Book List*. Dec., p. 527.
- Blazek, Mark C. *Is Your Amber Real?* July-Aug., p. 315
- Block, Mark. *Old Park Mine, Trumbull, Connecticut*. Jan.-Feb., p. 16
- Brunet, William M. *Ilmenite Occurrences in Litchfield, Connecticut*. Oct., p. 415; *Mineral Collecting in Woodbury-Southbury, Connecticut*. May, p. 182
- Buckley, Bruce W. *Pegmatites from Black Mountain, Maine*. July-Aug., p. 320
- Cooper, Lindy. *Prehnite-Apophyllite Plus!* June, p. 250
- Coulton, Richard L. *The Theropod Dinosaurs of the Edmonton Formation, Alberta, Canada*. May, p. 176
- Cowgill, Steven C. *The Minerals of Virginia's Old Dominion Soapstone Quarry*. July-Aug., p. 309
- Cox, Robert L. *The Micromounters Corner-Micromounting in the Winter*. Jan.-Feb., p. 20; *The Micromounters Corner-Weeding, Thinning and Cultivating*. Mar., p. 76; *The Micromounters Corner-First Impressions vs. Observations*. April, p. 126; *The Micromounters Corner-Quality of Micromounts*. May, p. 188; *The Micromounters Corner-Micromounting, the Conservation of Mineral Collecting*. July-Aug., p. 327; *The Micromounters Corner-On the Growth of Micromounting*. Sept., p. 386; *The Micromounters Corner-Mounting Small Specimens*. Oct., p. 436; *The Micromounters Corner-Art and Micromounting*. Dec., p. 543.
- Dagenhart, Thomas. *The History and Mineralogy of a Revolutionary War Period Iron Mine, North Garden, Virginia*. Sept., p. 360
- Dietrich, R. V. *A Resume: Pseudomorphs in Virginia*. June, p. 236
- Fisher, Henry. *Ohio Celestine*. Oct., p. 411
- Francis, Carl A. *An Introduction to VPI's Museum of Geological Sciences*. June, p. 289; *Book Review: Minerals of Virginia by R. V. Dietrich*. June, p. 242
- Freeland, Howard R. *Peter's Mountain: Hematite and Hematite Incrustation Pseudomorphs after Barite*. June, p. 279
- Goodwin, Bruce K. *The Geological Wealth of Richmond, Virginia*. June, p. 246
- Hartford, Winslow H. *Chromium and Color*. May, p. 169
- Heusser, George E. *Shawangunk Mountains Lead-Zinc Deposits*. Dec., p. 515.
- Holland, C. G. *Tracking Soapstone Artifacts with Rare Earth Trace Elements*. Mar., p. 67
- Jensen, David E. *Assembly of a Junior Mastodon*. Mar., p. 84; *Christmas Book List*. Dec., p. 527; *Knob Country-Revisited*. April, p. 117
- Jensen, David and Katherine. *Specimen Preparation-Suggestions on the Trimming, Washing and Repair of Mineral Specimens*. Nov., p. 468
- Jensen, Katherine. *Native Lead*. Jan.-Feb., p. 22
- Jud, William F. *The Lady in Stone-An Unusual Rock Picture*. Jan.-Feb., p. 19
- Katz, Arthur S. *Minerals from the Old Sulphur Mine, Louisa County, Virginia*. June, p. 275
- Katz, Delores. *What To Do if a Creature Bites You*. Mar., p. 85
- King, Vandall T. H. *Wallace Noyes: An Historical Sketch and a Look at Species Collecting*. Oct., p. 421; *The Study of Minerals-The Usefulness of Cleavage*. April, p. 127; *The Study of Minerals-The Miscellaneous Physical Properties*. July-Aug., p. 331; *World News on Mineral Occurrences*. Mar., p. 74; *World News on Mineral Occurrences*. April, p. 124; *World News on*

- Mineral Occurrences*. May, p. 186;
World News on Mineral Occurrences.
July-Aug., p. 320; *World News on*
Mineral Occurrences. Sept., p. 382;
World News on Mineral Occurrences.
Nov., p. 486
- Laskowich, Chris. *Minerals and Dinosaur*
Tracks from Little Falls, New Jersey.
Mar., p. 66
- Lasmanis, Raymond. *Selenite Crystals*
from Princeton, British Columbia.
July-Aug., p. 320
- Leavitt, Duane. *Looking for Maine*
Apatites. Dec., p. 524.
- Le Duce, Toni. *Topographic Maps—A*
Primer on Terms, Uses and Sources.
Sept., p. 367
- Lincks, Bea. *A Good Use for Extra*
Specimens. July-Aug., p. 314
- Linde, Martha. *South Dakota's Big Chief*
Mine. Mar., p. 72
- Loughlin, John. *Australian Opals*. April,
p. 139
- Lyons, Florence. *Chips and Bits from*
EFMLS Clubs. July-Aug., p. 335;
Chips and Bits from EFMLS Clubs.
Sept., p. 387; *Chips and Bits from*
EFMLS Clubs. Oct., p. 440; *Chips*
and Bits from EFMLS Clubs, Nov.,
p. 491; *Chips and Bits from EFMLS*
Clubs. Dec., p. 545.
- McClanahan, Attison. *Fossil Fern Frag-*
ments—Clues to Part of West Vir-
ginia's Prehistoric Past. April, p. 141
- Machiewicz, Michael C. *Calcite Crystals*
from Oahu, Hawaii. Mar., p. 70
- Martineau, Karen. *Preparing and Cleaning*
Fossils. Nov., p. 471
- Marshall, Royal R. *The Zinc Minerals*.
Mar., p. 57
- Mattison, Boyd. *Up on the Chalk*. July-
Aug., p. 304
- Mattison, Ruth. *Rice's Fossil Pit—*
Virginia Miocene Fossils. June, p. 283
- Mitchell, Richard S. *Barite Crystals from*
Gage County, Nebraska. Sept., p. 357;
Cerussite and Hydrocerussite on Altered
Civil War Lead Bullets: Are They Min-
erals? Jan.-Feb., p. 5; *Geological Dis-*
plays and Collections in Virginia. June,
p. 286; *Minerals from the Old Sulphur*
Mine, Louisa County, Virginia. June,
p. 275; *Some Noteworthy Minerals*
from Virginia. June, p. 221
- Molon, Joseph. *Major Geologic Forma-*
tions in Western Germany. Sept., p. 377
- Narsavage, Robert J. Jr. *Update on Collect-*
ing in Paterson, New Jersey. Sept.,
p. 372
- O'Connor, James V. *Some Geological*
Points of Interest along the Fall
Zone of Northeastern Virginia. Nov.,
p. 473
- Pollack, Ross. *Riker Hill, New Jersey—*
An Active Collecting Area. Dec.,
p. 541.
- Rader, Eugene K. *Fossil Collecting in*
Virginia. June, p. 281
- Reiner, John. *Thumbnails—Fluorescent*
Thumbnails. Jan.-Feb., p. 21; *Thumb-*
nails—The Metallic Minerals. Mar.,
p. 79; *Thumbnails—Young Collectors*.
July-Aug., p. 329; *Thumbnails—*
Collecting in New Hampshire. Oct.,
p. 438; *Thumbnails—Pint's Quarry*.
Nov., p. 495
- Roberts, Mervyn E. Jr. *A Bicentennial*
Project: Okinawa's Plaza of States.
Jan.-Feb., p. 12
- Schlichter, Ernest S. *Westmoreland, New*
Hampshire—The Closing of a Collect-
ing Site. Jan.-Feb., p. 7
- Sherwood, W. Cullen. *The Geology of*
Virginia. June, p. 236
- Sloat, Lou W. *Last of the Alabama Gold*
Mines. Nov., p. 463
- Smith, Darrell. *New Sulfide—Mineral*
Prospect, Louisa County, Virginia.
May, p. 184
- Speer, J. Alexander. *The Orthorhombic*
Carbonate Minerals of Virginia. June,
p. 275
- Stansbury, Steve. *Sponges—Animals*
with Holes. Jan.-Feb., p. 34
- Sweet, Palmer C. *Mineral and Fossil*
Collecting Sites in Virginia. June,
p. 230
- Thorne, Peter. *Fossil Fan Palms of the*
Northwest. Oct., p. 427
- Trimble, David C. *The Minerals of Vir-*
ginia's Old Dominion Soapstone Quarry.
July-Aug., p. 309
- Ulrich, William. *Checklist of New York*
Minerals. April, p. 122
- Van DeBogert, Kenneth. *Thumbnails—*
Pint's Quarry. Nov., p. 495
- Van Diver, Bradford B. *Mineral Environ-*
ments of New York's North Country.
April, p. 109
- Watson, Eugene T. *The Minerals of*
Virginia's Old Dominion Soapstone
Quarry. July-Aug., p. 309

- Wegad, Gilbert. *Selection of Faceting Material*. Jan.-Feb., p. 11
- Wertz, Vernon. *Chips and Bits from EFMLS Clubs*. Jan.-Feb., p. 30; *Chips and Bits from EFMLS Clubs*. Mar., p. 80; *Chips and Bits from EFMLS Clubs*. April, p. 132; *Chips and Bits from EFMLS Clubs*. May, p. 194
- Wight, Quintin. *Tip on Mounting Micros*. April, p. 143
- Zahn, Ken. *The Washington Scene*. July-Aug., p. 334
- Zvirblis, Anthony G. *Fossil Department—Collecting Devonian Trilobites*. Jan.-Feb., p. 29; *Fossil Department—Looking Back*. Mar., p. 78; *Fossil Department—Relics of the Pennsylvanian Period*. May, p. 190

INDEX TO LOCALITIES

- Alabama—*Last of the Alabama Gold Mines*. Lou W. Sloat, Nov., p. 463
- Australia—*Australian Opals*, April, p. 139; *Rare Meteorite Found in Australia*. Nov., p. 497
- British Columbia—*Fossil Fan Palms of the Northwest*. Peter Thorne, Oct., p. 427; *Selenite Crystals from Princeton, British Columbia*. Raymond Lasmanis, July-Aug., p. 320
- California—*The Early Days of Copper Mining in California*, Dana Batory, Dec., p. 521.
- Canada—*The Theropod Dinosaurs of the Edmonton Formation, Alberta, Canada*. Richard L. Coulton, May, p. 176
- Connecticut—*Ilmenite Occurrences in Litchfield, Connecticut*. William M. Brunet, Oct., p. 415; *Mineral Collecting in Woodbury-Southbury, Connecticut*. William M. Brunet, May, p. 182; *Old Park Mine, Trumbull, Connecticut*. Mark Block, Jan.-Feb., p. 16
- Florida—*Assembly of a Junior Mastodon Becomes a Club's Stellar Project*. David E. Jensen. Mar., p. 84
- Hawaii—*Calcite Crystals from Oahu, Hawaii*. Michael C. Mackiewicz. Mar., p. 70
- Iowa—*Pint's Quarry*. John Reiner, Kenneth Van DeBogert, Nov., p. 495
- Maine—*Looking for Maine Apatites*. Duane Leavitt, Dec., 524; *Pegmatites from Black Mountain, Maine*. Bruce W. Buckley, July-Aug., p. 317
- Nebraska—*Barite Crystals from Gage County, Nebraska*. Richard S. Mitchell, Sept., p. 357
- New Hampshire—*Collecting in New Hampshire*. John Reiner, Oct., p. 439; *Westmoreland, New Hampshire—The Closing of a Collecting Site*. Ernest S. Schlichter, Jan.-Feb., p. 7
- New Jersey—*Minerals and Dinosaur Tracks from Little Falls, New Jersey*. Chris Laskowich, Mar., p. 66; *Riker Hill, New Jersey—An Active Collecting Area*. Ross Pollack, Dec., p. 541; *Update on Collecting in Paterson, New Jersey*. Robert J. Narsavage Jr., Sept., p. 372
- New York—*Checklist of New York Minerals*. William Ulrich, April, p. 122; *Collecting Devonian Trilobites*, Anthony G. Zvirblis. Jan.-Feb., p. 29; *Mineral Environments of New York's North Country*. Bradford B. Van Diver, April, p. 109; *Pierrepoint, New York—A Classic Collecting Site*. April, p. 120; *Shawangunk Mountain Lead-Zinc Deposits*. George E. Heusser, Dec., p. 515.
- North Carolina—*North Carolina Restores Reed Gold Mine*. April, p. 142; *Up on the Chalk*. Boyd S. Mattison. July-Aug., p. 304
- Ohio—*Ohio Celestine*. Henry Fisher, Oct., p. 411
- South Dakota—*South Dakota's Big Chief Mine*. Martha Linde, Mar., p. 72
- Virginia—*A Resume: Pseudomorphs in Virginia*. R. V. Dietrich, June, p. 236; *An Introduction to VPI's Museum of Geological Sciences*. Carl A. Francis, June, p. 289; *Book Review: Minerals of Virginia by R. V. Dietrich*. Carl Francis, June, p. 242; *Cerussite and Hydrocerussite on Altered Civil War Lead Bullets: Are They Minerals?* Richard S. Mitchell, Jan.-Feb., p. 5; *Collections and Displays—Lora Robins Gallery of Design from Nature, Richmond, Virginia*. Nov., p. 482; *Fossil Collecting in Virginia*. Eugene K. Rader, June, p. 281; *Geological Displays and Collections in Public and Private Insti-*

tutions of Virginia. Richard S. Mitchell, June, p. 286; *The Geological Wealth of Richmond, Virginia*. Bruce K. Goodwin, June, p. 246; *The Geology of Virginia*. W. Cullen Sherwood, June, p. 244; *The History and Mineralogy of a Revolutionary War Period Iron Mine, North Garden, Virginia*. Thomas Dagenhart Jr., Sept., p. 360; *Jeffersonite: A Mineral Named for Thomas Jefferson*. June, p. 274; *Mineral and Fossil Collecting Sites in Virginia*. Palmer C. Sweet, June, p. 230; *Minerals from the Old Sulphur Mine, Louisa County, Virginia*. Richard S. Mitchell, Arthur S. Katz, June, p. 275; *The Minerals of Virginia's Old Dominion Soapstone Quarry*. Eugene T. Watson, David C. Trimble, Steven C. Cowgill, July-Aug., p. 309; *Nelsonite: A Unique Virginia Rock*. June, p. 235; *New Sulfide Mineral Prospect Louisa County, Virginia*. Darrell Smith, May, p. 184; *The Orthorhombic Carbonate Minerals of Virginia*. J. Alexander Speer, June, p. 267; *Peter's Mountain: Hematite and Hematite Incrustation Pseudomorphs after Barite*. Howard R. Freeland, June, p. 279; *Prehnite—Apophyllite Plus!* Lindy Cooper, June, p. 250; *Rice's Fossil Pit—Virginia Miocene Fossils*. Ruth Mattison, June, p. 283; *Some Geological Points of Interest along the Fall Zone of Northeastern Virginia*. James V. O'Connor, Nov., p. 473; *Some Noteworthy Minerals from Virginia*. Richard S. Mitchell, June, p. 221; *Tracking Soapstone Artifacts with Rare Earth Trace Elements*. C. G. Holland, Ralph Allen, Mar., p. 67; *Unakite*. Richard S. Mitchell, June, p. 228; *William Barton Rogers*. June, p. 274
West Virginia—Fern Fossil Fragments—Clues to Part of West Virginia's Prehistoric Past. Attison McClanahan, April, p. 141

INDEX TO PARTICULAR MINERALS AND SPECIES

Amber—*Is Your Amber Real?* Mark C. Blazek, July-Aug., p. 315

Amethyst—*Cover photograph*. Katherine H. Jensen, October; *Mineral and Fossil Collecting Sites in Virginia*. Palmer C. Sweet, June, p. 230; *Some Noteworthy Minerals from Virginia*. Richard S. Mitchell, June, p. 221
Apatite—*Cover photograph*. Katherine H. Jensen, April; *The History and Mineralogy of a Revolutionary War Period Iron Mine, North Garden, Virginia*. Thomas Dagenhart Jr., Sept., p. 360; *Looking for Maine Apatites*. Duane Leavitt, Dec., p. 524.
Apophyllite—*Prehnite—Apophyllite Plus!* Lindy Cooper, June, p. 250; *Some Noteworthy Minerals from Virginia*. Richard S. Mitchell, June, p. 221
Aragonite—*The Orthorhombic Carbonate Minerals of Virginia*. J. Alexander Speer, June, p. 267
Autunite—*Up on the Chalk*. Boyd S. Mattison, July-Aug., p. 304
Babingtonite—*Riker Hill, New Jersey—An Active Collecting Area*. Ross Pollack, Dec., 541.
Barite—*Barite Crystals from Gage County, Nebraska*. Richard S. Mitchell, Sept., p. 357
Beryl—*Mineral and Fossil Collecting Sites in Virginia*. Palmer C. Sweet, June, p. 230
Biotite—*The History and Mineralogy of a Revolutionary War Period Iron Mine, North Garden, Virginia*. Thomas Dagenhart Jr., Sept., p. 360
Calcite—*Calcite Crystals from Oahu, Hawaii*. Michael C. Mackiewicz, Mar., p. 70; *Cover photograph*. Katherine H. Jensen, April; *Cover photograph*. Henry Van Lenten, September; *Mineral Collecting in Woodbury-Southbury, Connecticut*. William M. Brunet, May, p. 182; *Minerals and Dinosaur Tracks from Little Falls, New Jersey*. Chris Laskowich, Mar., p. 66; *Riker Hill, New Jersey—An Active Collecting Area*. Ross Pollack, Dec., p. 541.
Celestine—*Ohio Celestine*. Henry Fisher, Oct., p. 411
Cerussite—*Cerussite and Hydrocerussite on Altered Civil War Lead Bullets: Are They Minerals?* Richard S. Mitchell, Jan.-Feb., p. 5; *Letters*. April, p. 154; *The Orthorhombic*

- Carbonate Minerals of Virginia.*
J. Alexander Speer, June, p. 267
- Chlorite—Riker Hill, New Jersey—An Active Collecting Area.* Ross Pollack, Dec., p. 541.
- Chromium—Color and the Chromium Minerals.* Winslow H. Hartford, May, p. 169
- Cleavelandite—Some Noteworthy Minerals from Virginia.* Richard S. Mitchell, June, p. 221
- Copper—The Early Days of Copper Mining in California.* Dana Batory, Dec., p.? ; *Thumbnails—The Metallic Minerals.* John Reiner, Mar., p. 79
- Datolite—Update on Collecting in Paterson, New Jersey.* Robert J. Narsavage Jr., Sept., p. 372
- Fluorite—Westmoreland, New Hampshire—The Closing of a Collecting Site.* Ernest S. Schlichter, Jan.-Feb., p. 7
- Fluorescents—Fluorescent Thumbnails,* John Reiner, Jan.-Feb., p. 21
- Fluorichterite—Letters.* Oct., p. 449
- Gold—Last of the Alabama Gold Mines.* Lou W. Sloat, Nov., p. 463
- Hardystonite—Cover Photograph.* Henry Van Lenten, September
- Hematite—Peter's Mountain: Hematite and Hematite Incrustation Pseudomorphs after Barite.* Howard R. Freeland, June, p. 279
- Hyalite—Up on the Chalk.* Boyd S. Mattison, July-Aug., p. 304
- Hydrocerussite—Cerussite and Hydrocerussite on Altered Civil War Lead Bullets: Are They Minerals?* Richard S. Mitchell, Jan.-Feb., p. 5; *Letters.* April, p. 154
- Ilmenite—The History and Mineralogy of a Revolutionary War Period Iron Mine, North Garden, Virginia.* Thomas Dagenhart Jr., Sept., p. 360; *Ilmenite Occurrences in Litchfield, Connecticut.* William M. Brunet, Oct., p. 415
- Lead—Native Lead,* Kay Jensen, Jan.-Feb., p. 22; *Shawangunk Mountain Lead-Zinc Deposits.* George E. Heusser, Dec., p. 515.
- Lepidolite—Pegmatites from Black Mountain, Maine.* Bruce W. Buckley, July-Aug., p. 317
- Limestone—Old Park Mine, Trumbull, Connecticut.* Mark Block, Jan.-Feb., p. 16
- Magnetite—The History and Mineralogy of a Revolutionary War Period Iron Mine, North Garden, Virginia.* Thomas Dagenhart, Sept., p. 360
- Mica—Mineral and Fossil Collecting Sites in Virginia.* Palmer C. Sweet, June, p. 230
- Microlite—Some Noteworthy Minerals from Virginia.* Richard S. Mitchell, June, p. 221
- Mimetite—Cover photograph.* Joel Arem, January-February
- Natrolite—Update on Collecting in Paterson, New Jersey.* Robert J. Narsavage Jr., Sept., p. 372
- Nelsonite—Nelsonite: A Unique Virginia Rock.* June, p. 235
- Opal—Australian Opals,* April, p. 139
- Pectolite—Update on Collecting in Paterson, New Jersey.* Robert J. Narsavage Jr., Sept., p. 372
- Pegmatite—South Dakota's Big Chief Mine.* Martha Linde, Mar., p. 72
- Prehnite—Prehnite—Apophyllite Plus!* Lindy Cooper, June, p. 250; *Riker Hill, New Jersey—An Active Collecting Area.* Ross Pollack, Dec., 541; *Some Noteworthy Minerals from Virginia.* Richard S. Mitchell, June, p. 221; *Update on Collecting in Paterson, New Jersey.* Robert J. Narsavage Jr., Sept., p. 372
- Pyrite—New Sulfide Mineral Prospect Louisa County, Virginia.* Darrell Smith, May, p. 184
- Quartz—Last of the Alabama Gold Mines.* Lou W. Sloat, Nov., p. 463; *Minerals and Dinosaur Tracks from Little Falls, New Jersey.* Chris Laskowich, Mar., p. 66; *Mineral and Fossil Collecting Sites in Virginia.* Palmer C. Sweet, June, p. 230; *Mineral Collecting in Woodbury-Southbury, Connecticut.* William A. Brunet, May, p. 182; *Riker Hill, New Jersey—An Active Collecting Area.* Ross Pollack, Dec., 541.
- Rhodochrosite—Cover photograph.* Joel Arem, May; *Cover photograph.* Joel Arem, November; *The Lady in Stone—An Unusual Rock Picture.* William F. Jud, Jan.-Feb., p. 19
- Selenite—Selenite Crystals from Princeton British Columbia.* Raymond Lasmanis, July-Aug., p. 320
- Siderite—Ilmenite Occurrences in Litchfield, Connecticut.* William M. Brunet, Oct., p. 415

- Soapstone—*Tracking Soapstone Artifacts with Rare Earth Trace Elements*. C. G. Holland, Ralph Allen, Mar., p. 67
- Staurolite—*Some Noteworthy Minerals from Virginia*. Richard S. Mitchell, June, p. 221
- Stilbite—*Mineral Collecting in Woodbury-Southbury, Connecticut*. William M. Brunet, May, p. 182; *Minerals and Dinosaur Tracks from Little Falls, New Jersey*. Chris Laskowich, Mar., p. 66
- Strontianite—*The Orthorhombic Carbonate Minerals of Virginia*. J. Alexander Speer, June, p. 267
- Sulfides—*New Sulfide-Mineral Prospect Louisa County, Virginia*. Darrell Smith, May, p. 184
- Tobernite—*Up on the Chalk*. Boyd S. Mattison. July-Aug., p. 304
- Topaz—*Old Park Mine, Trumbull, Connecticut*. Mark Block, Jan.-Feb., p. 16
- Tourmaline—*Pegmatites from Black Mountain, Maine*. Bruce W. Buckley, July-Aug., p. 137; *Pierrepoint, New York—A Classic Collecting Site*. April, p. 120
- Turquoise—*Cover photograph*. David M. Skinner, June; *Turquoise Certification Process Developed at Arizona State University*. Sept., p. 380
- Turquoise crystals—*Some Noteworthy Minerals from Virginia*. Richard S. Mitchell, June, p. 221
- Tugtupite—*Letters*, Jan.-Feb., p. 42; *Letters*, Mar., p. 95; *Letters*. April, p. 154; *Letters*. May, p. 209;
- Unakite—*Unakite*. Richard S. Mitchell, June, p. 228
- Vivianite—*Some Noteworthy Minerals from Virginia*. Richard S. Mitchell, June, p. 221
- Willemite—*Cover photograph*. Henry Van Lenten, September
- Wulfenite with mimetite—*Cover photograph*. Joel Arem, July-August
- Zeolites—*Mineral Collecting in Woodbury-Southbury, Connecticut*. William M. Brunet, May, p. 182
- Zinc—*The Zinc Minerals*. Royal R. Marschall. Mar., p. 57; *Shawangunk Mountain Lead-Zinc Deposits*. George E. Heusser, Dec., p. 515.
- Zincite—*Cover photograph*, Joel Arem, March

COVER PHOTOGRAPHS

- January—*Mimetite*, Tseumb, S. W. Africa. Smithsonian Collection. Photograph by Joel Arem
- March—*Zincite*, Franklin, New Jersey. Smithsonian Collection. Photograph by Joel Arem
- April—*Apatite crystal in calcite*. Rossie, New York. Photograph by Katherine H. Jensen
- May—*Rhodochrosite*. Silverton, Colorado. Smithsonian Collection. Photograph by Joel Arem
- June—*Crystallized Turquoise*. Lynch Station, Virginia. University of Virginia Collection. Photograph by David M. Skinner
- July-August—*Wulfenite with mimetite*. Rowley Mine, Theba, Arizona. Smithsonian Collection. Photograph by Joel Arem
- September—*Hardystonite, calcite and willemite*. Franklin, New Jersey. Photograph by Henry Van Lenten
- October—*Amethyst*. Margarittha Mine, Guerrero, Mexico. Photograph by Katherine H. Jensen
- November—*Rhodochrosite*. Louise Mine, Horhausen, Naussau Germany, Smithsonian Collection. Photograph by Joel Arem
- December—*Silver, crystallized with copper*. Houghton County, Michigan. Photograph by Katherine H. Jensen.
